Managing our Resources

Land Ownership

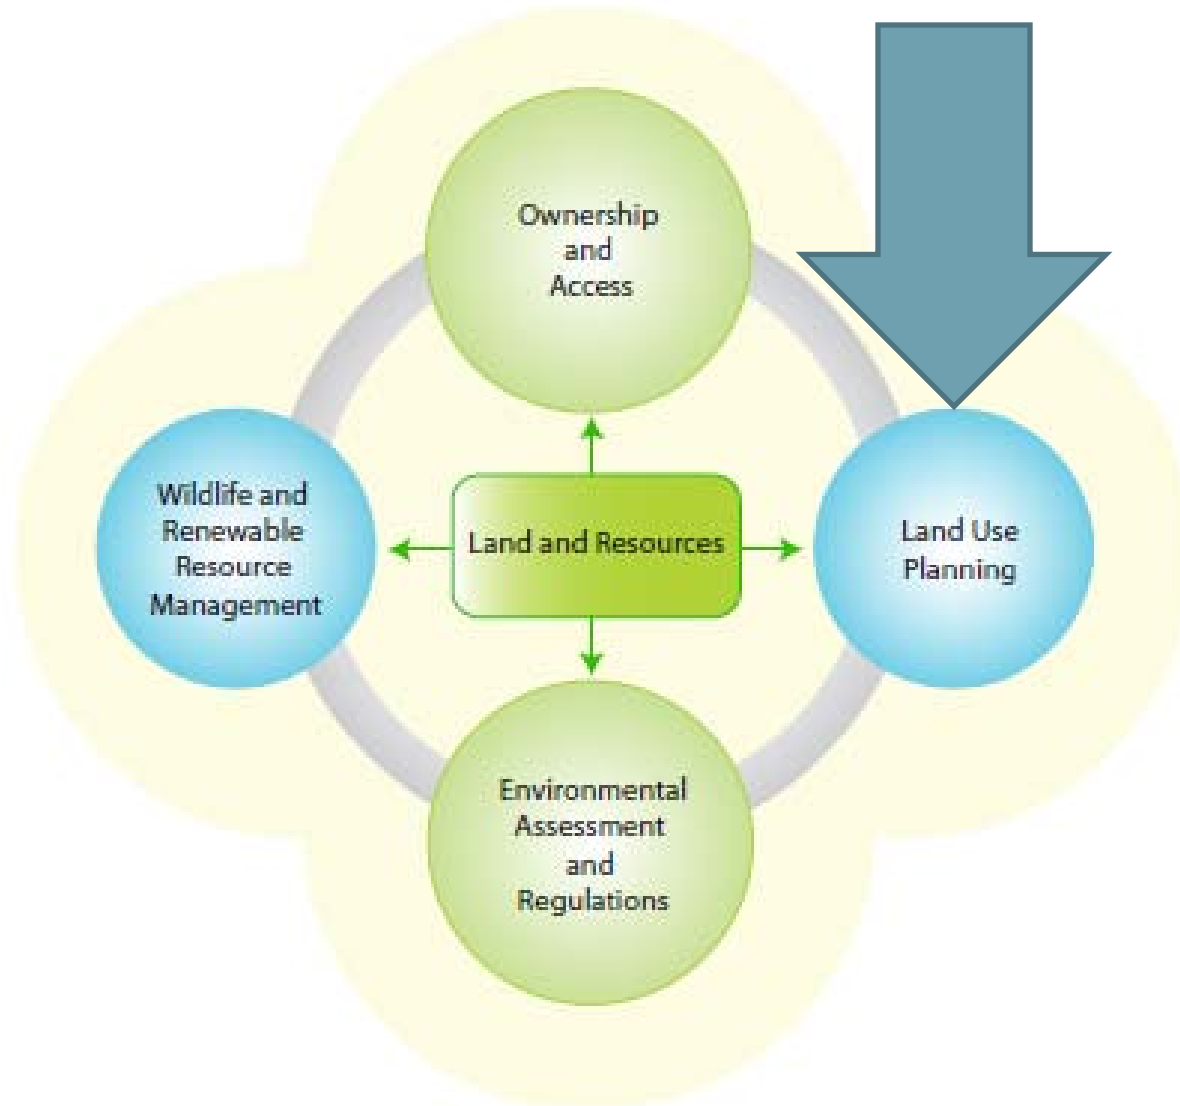

- Territorial (Commissioner's)
- Federal
- Aboriginal

What Tools do we use?

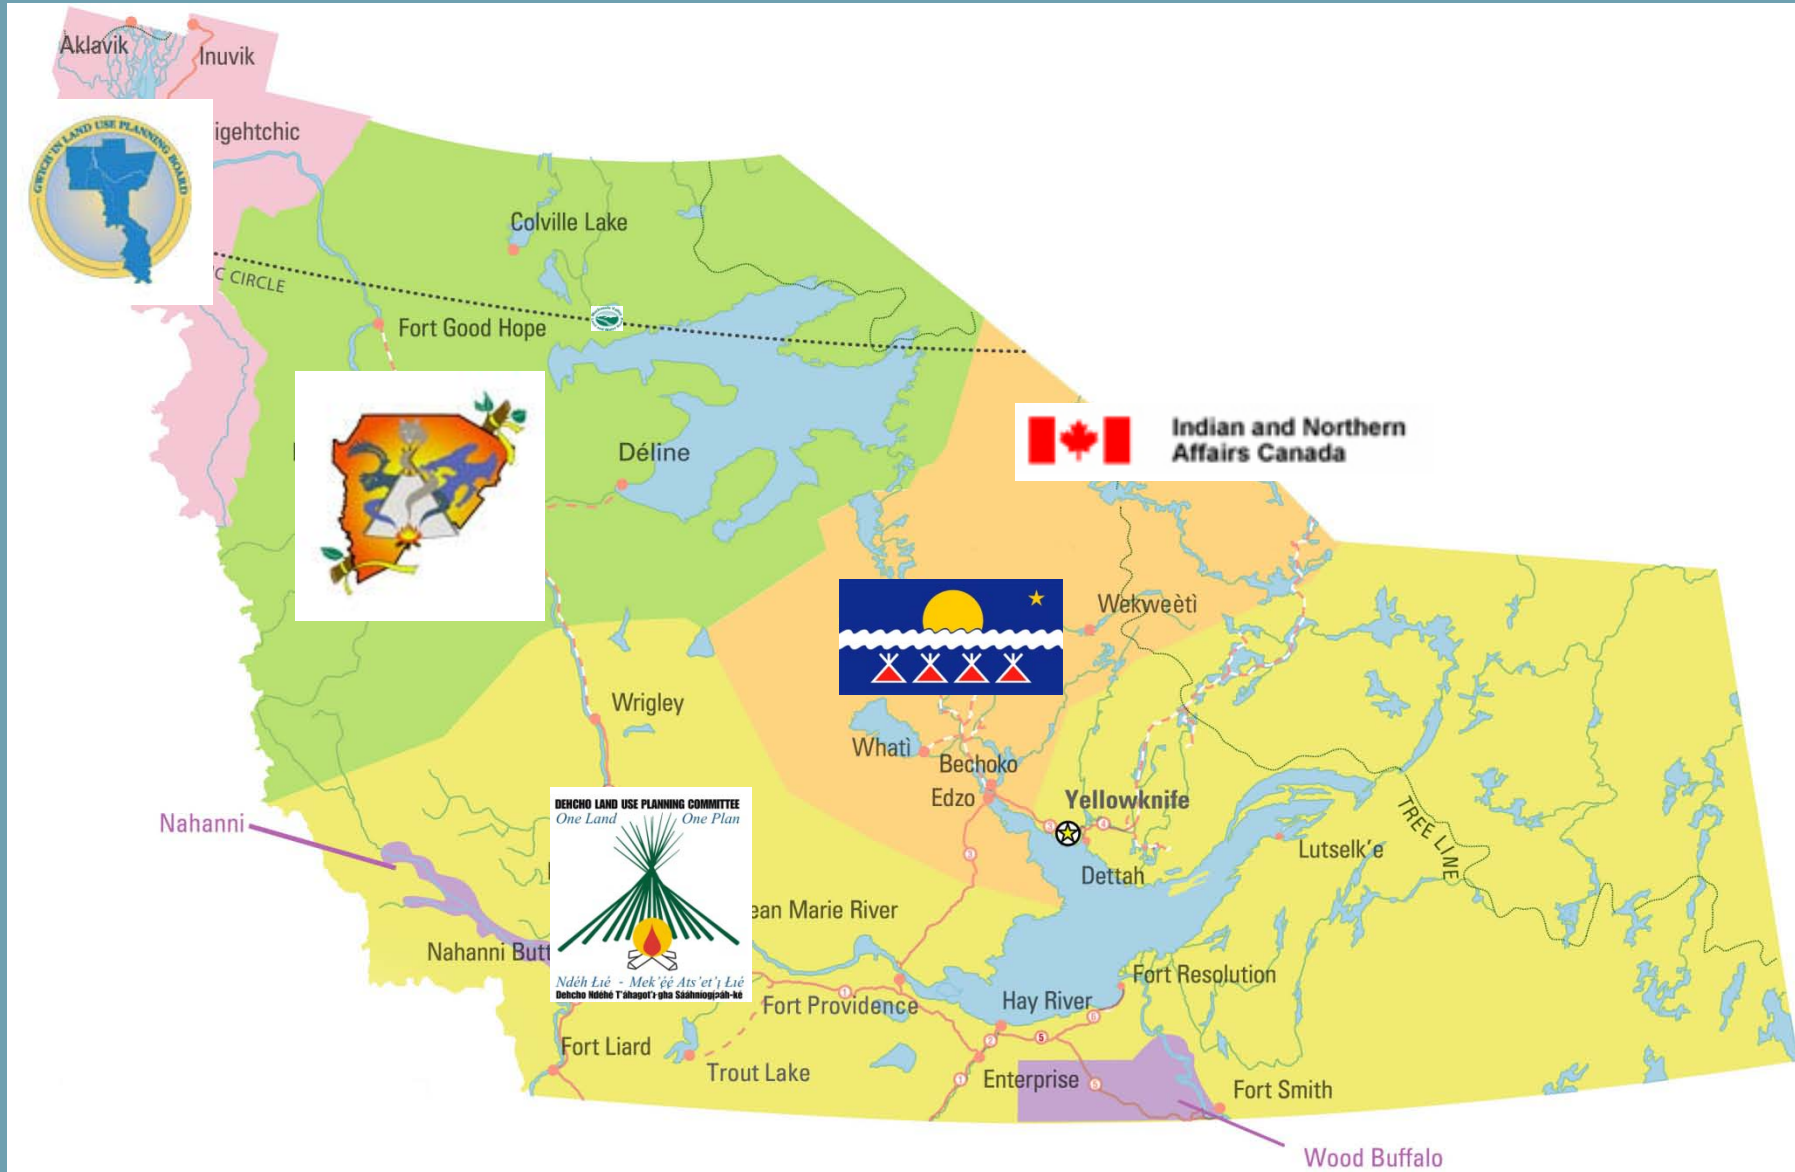

Land Owners (Federal, Territorial, Aboriginal)

- Leases, Licences of Occupation
- Other ownership mechanisms
- Terms and Conditions
 - When, what, how, where
- Financial Agreements

Managing our Resources

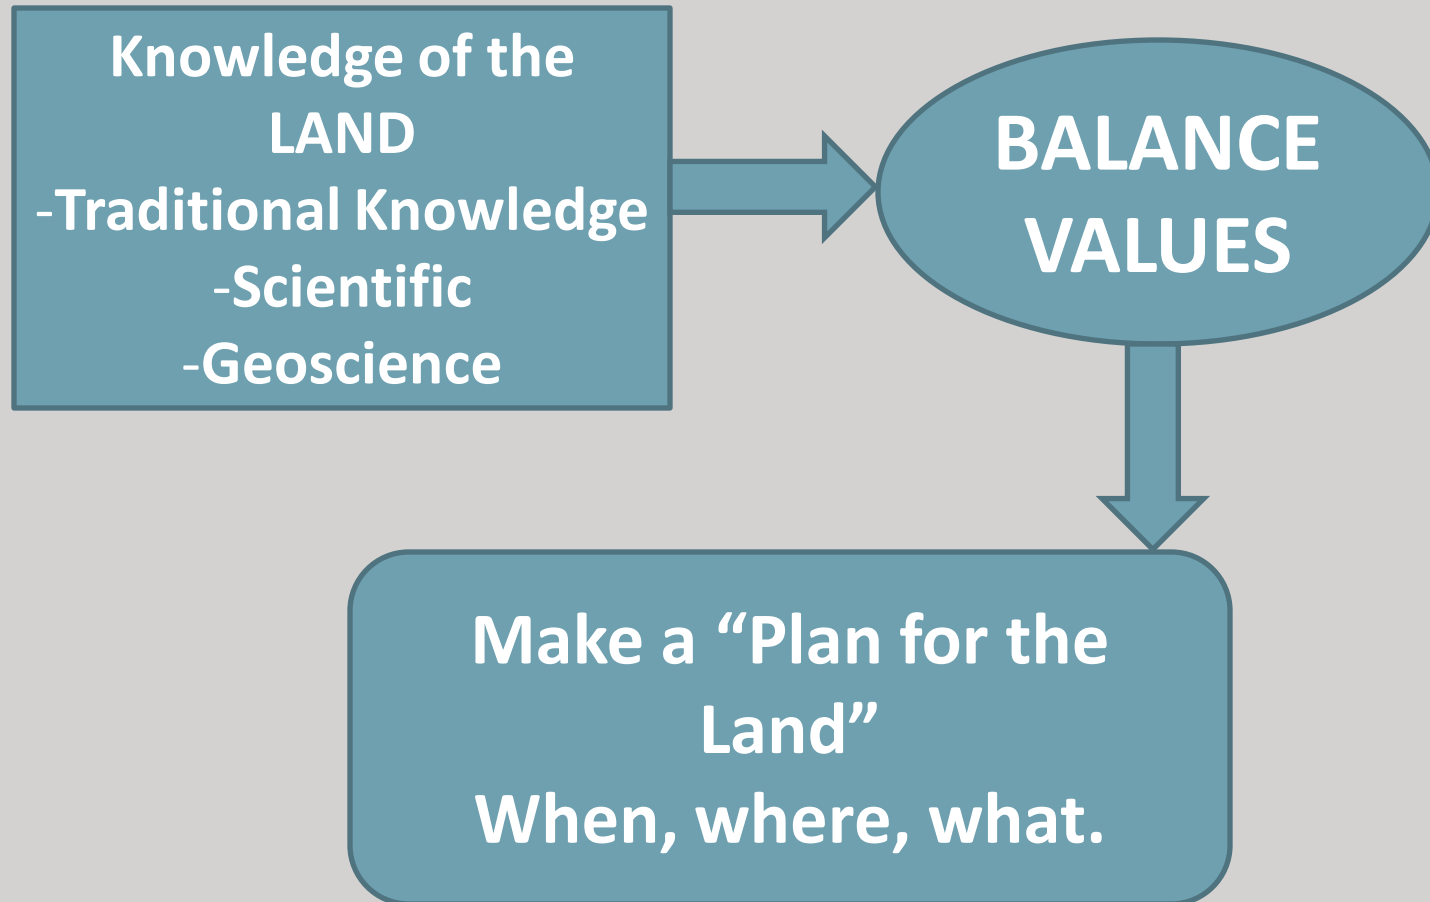

Land Use Planning

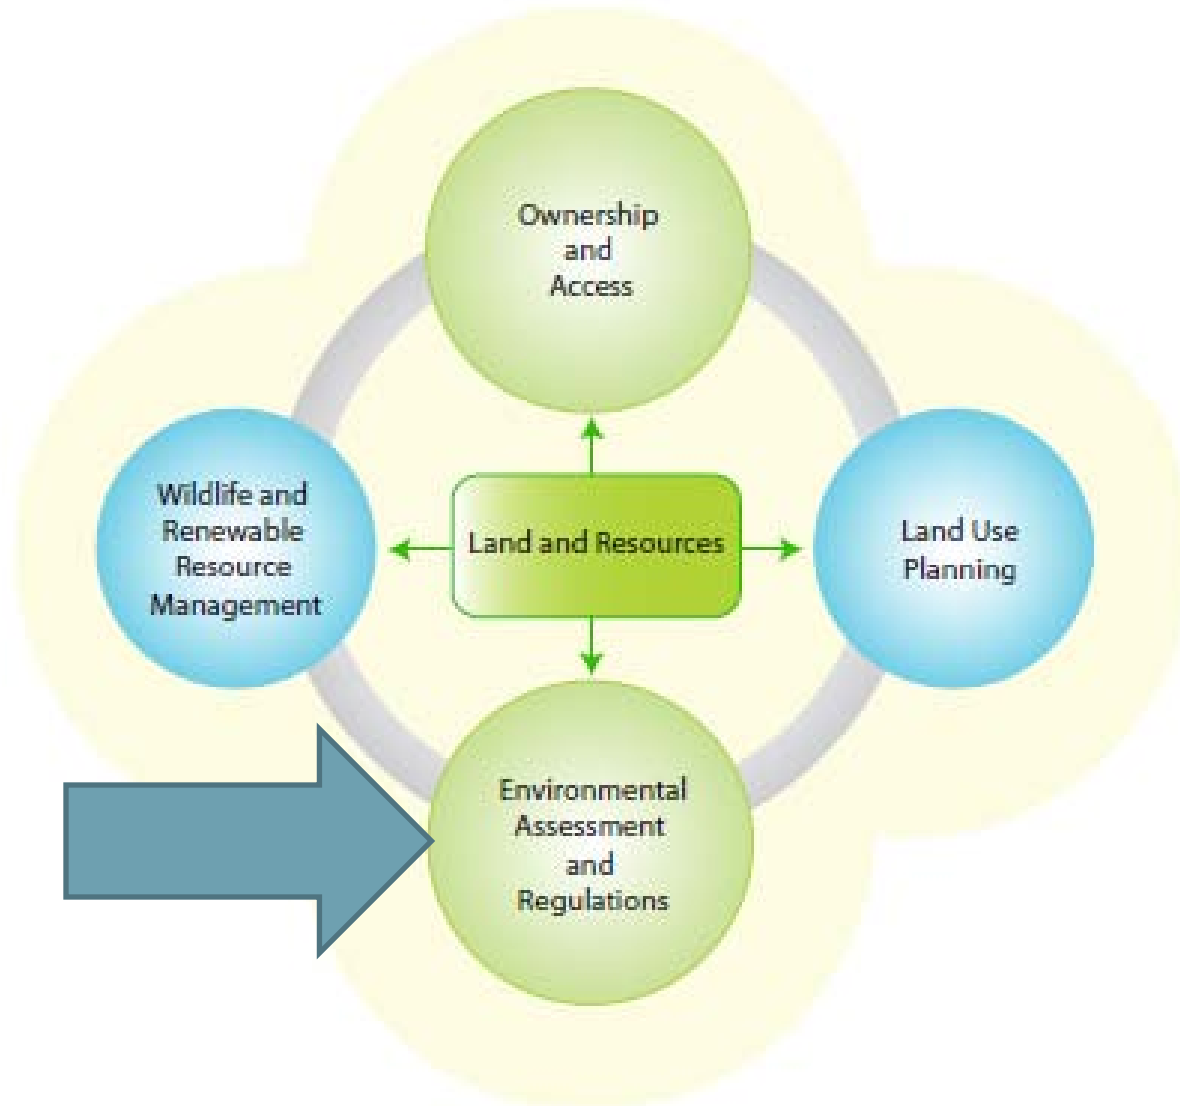

What Tools do we use?

Land Use Planning

Managing our Resources

Our Northern Resources are regulated by a number of agencies

Regulation of Activities

```

Integrated System

Land and Water Management

- Integrated System

“The following principles apply to this chapter:

An integrated system of land and water management should apply to the Mackenzie Valley;

The regulation of land and water in the settlement area and in adjacent areas should be co-ordinated.

- Based on principles of co-management

Jurisdiction of the 4 Land and Water Boards of the Mackenzie Valley

Objective

“The objectives of the Board are to provide for the conservation, development and utilization of land and water resources in a manner that will provide the optimum benefit generally for all Canadians and in particular for residents of the Mackenzie Valley.”

What do the Land and Water Boards do?

The Boards regulate the use of land and water and deposit of waste into water.
