

# RESOURCE CO-MANAGEMENT WORKSHOP

Hosted by the Mackenzie Valley Review Board, the Mackenzie Valley Land and Water Board, and the Government of the Northwest Territories

**January 25-26, 2017**

Hay River, NT (venue to be announced)

## BACKGROUND

The Resource Co-management Workshop is hosted by the Mackenzie Valley Review Board, the Mackenzie Valley Land and Water Board, and the Government of the Northwest Territories. The goals, delivery methods and regional setting for this workshop were based on feedback from participants of the MVRMA Workshop held January 12-13, 2016 in Yellowknife. Survey results along with further collaboration with Aboriginal governments and organizations will help develop the content.

## WORKSHOP GOALS

This will be a plain language workshop for resource management practitioners with an emphasis on how to participate meaningfully in resource co-management processes. The content will be tailored to the needs of practitioners in the NWT. The goal is to inform participants about the processes, share knowledge, ideas and experiences, and present an opportunity for back-and-forth dialogue.

## Preliminary Agenda

Tuesday, January 24, 2017	
Registration and Networking (optional event) <ul style="list-style-type: none"><li>An opportunity to pick up your registration package and meet other workshop participants. Location to be announced.</li></ul>	TBD
